MOOC Homepage Revamp [1]

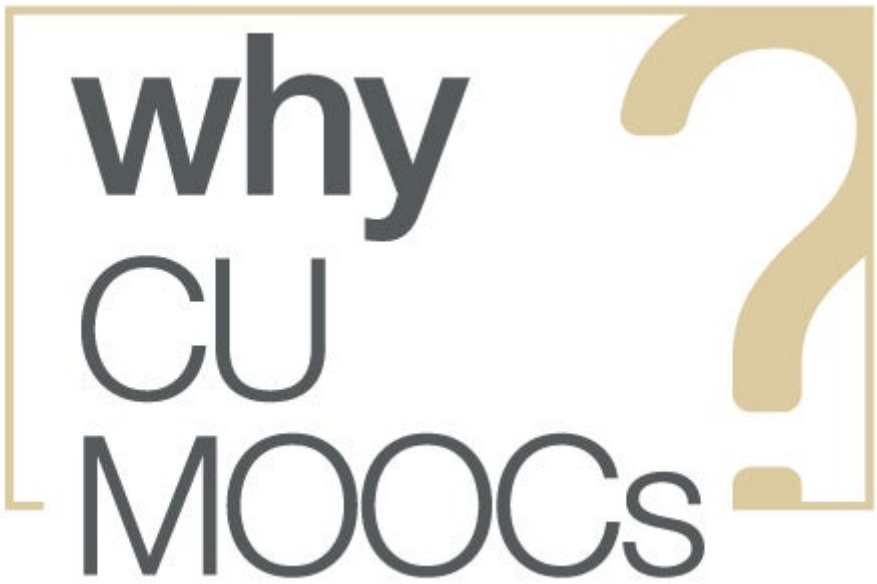
MOOCs, or **massive open online courses**, are open-access, non-credit classes offered through Coursera available at no cost to participants. Coursera's comprehensive education platform combines mastery-based learning principles with video lectures, interactive content and an expanded community of peers, enabling universities to develop and deliver content with the potential to boost completion, quality and access to higher education for students in classrooms and across the globe.

Massive Open Online Courses (MOOCs) are open-access, non-credit courses offered through Coursera. MOOCs provide an affordable and flexible way to learn new skills, advance your career, and deliver an educational experiences at a large scale.

What can I get from a MOOC? [2] MOOC vs Online Course [3]

Anyone! Mooc are open-access, meaning that they are available to all. There are no prerequisites, qualifications, or statuses required to enroll in a MOOC.

What to expect as a learner [4]



Doopy Doop, I don't know.

Interested in teaching a MOOC?

CU offers MOO

sciences | healthcare |

SCIENCES
Algorithms for Battery Management Systems
Applied Cryptogrphy
C# Programming for Unity Game Development
Computer Communications
Computer Security and Systems Management
Cybersecurity for Business
Fundamentals of Computer Network Security
Homeland Security and Cybersecurity
Introduction to Applied Cryptology
Requirements Engineering: Secure Software Specifications
Secure Software Design
Cloud Computing Security
Security and Privacy in TOR Network

Gut Check: Exploring Your Microbiome
DDoS Attacks and Defenses
Active Optical Devices
Developing Industrial Internet of Things
Embedding Sensors and Motors
Excel/VBA for Creative Problem Solving
Optical Engineering
Power Electronics
Semiconductor Devices
Spacecraft Dynamics and Control
The Sun and the Total Eclipse of August 2017
Introduction to FPGA Design for Embedded Systems
Science of Exercise
Introduction to Embedded Systems Software and Development Environments
Embedded Software and Hardware Architecture

HEALTHCARE

Become and EMT
Clinical Data Science
Newborn Baby Care
Palliative Care: It's Not Just Hospice Anymore
School Health for Children and Adolescents
Foundations for Global Health Responders
Principles of fMRI1
Principles of fMRI2
