Population Diversity (K-12, State, National) [1]

ABOUT THIS VISUALIZATION: Based on US Census data, this visualization allows for comparing demographic diversity of several populations including Colorado K-12 (all grades), Colorado High School Completers, Colorado residents, and U.S. state populations. Additionally, the tool allows for comparing Colorado racial demography to any other state. This data visualization was created by the CU System Institutional Research. Additional details are provided within the visualization.

Should you have questions or comments on this data, please contact IR@cu.edu [4].

POPULATION DIVERSITY
Colorado State Demographics

ABOUT THIS VISUALIZATION

The data provided in these PEER COMPARISONS visualizations is based on U.S. Census data. Dashboards and filters allow for comparing Colorado demographic data with U.S. Census data, and visualizing outcome measures across multiple demographic categories.

Click on a tile with the link symbol to navigate to the applicable dashboard.

K-12 Population

This dashboard sources pupil membership for Colorado secondary enrollment (grades K-12) and high school completion data from the Colorado Department of Education (CDE). [https://www.cde.state.co.us/](https://www.cde.state.co.us/)

Available demographic categories include race/ethnicity, sex, and free or reduced lunch status.
