

CU Marketplace How-to: Adding Requestors (Assignees) to Your Profile ^[1]

If you have the Shopper role in CU Marketplace, you'll need to add Requestors - also referred to as "Assignees" - to your Profile. A Shopper cannot submit a purchase request, so you'll assign your shopping cart to a Requestor for submission.

Read the procedures

To add a Requestor to your Profile

1. In CU Marketplace, click the User icon, located in the ribbon at the top of the screen, and select **View My Profile**.
2. Use the menu on the left to click **Default User Settings**, then **Cart Assignees**.
3. Click **Add Assignee...**
4. Enter your Requestor's **Last Name** – additional information will narrow down your list of results.
5. Click **Search**.
6. Select a Requestor from the list by clicking the person's row.
7. The Requestor will be available to you in a dropdown list on your shopping carts.
8. To designate a Requestor as preferred and have that Requestor default to your shopping cart, click Set as **Preferred**.

To remove a Requestor from your Profile

9. Click **Remove** for that Requestor.
