5. Stewardship of University Property [1]

The university is committed to responsible stewardship of university resources, and members of the university community are expected to ensure that university property, funds, and technology are used appropriately. These responsibilities include using university property, equipment, and resources only for legitimate university purposes; promoting efficient operations; following sound financial practices; and engaging in appropriate accounting and monitoring.

University property includes the university seal, name, and logo. The university regulates the use of its seal, name and related trademarks and logos in order to protect the university’s reputation and to ensure that their use is related to the university's educational, research, community service, and patient care missions.
