The CU System Staff Council is a group of 25 staff members who represent the System Administration. The Council's primary focus was to be established by the president of the university in March 1989. The Council serves as a representative body for communicating the ideas and concerns of classified and unclassified employees to the system administrators. Additionally, we propose policies and facilitate a variety of person, hybrid, and virtual events to bring collaborative opportunities to System staff. We are your voice.
