Welcome! [1]

Rocky Mount
State Author

The Rocky Mountain State Authorization Support (RM-SAS) is an effort sponsored by the University of Colorado System to provide a forum for institutions in the Rocky Mountain Region to share information, insight and resources related to compliance with state authorization requirements.

Our goal is to facilitate the sharing of information and best practices in order to manage the burden of ascertaining and monitoring requirements across all 50-states, so that institutions may continue to serve students nationwide.

RM-SAS hosts an Annual Networking Forum, offered in conjunction with the COLTT conference, and facilitates collaboration between institutions through various events and venues.
