The CU strategic planning process began with a listening process in early summer 2019 in which the administration engaged governance groups, campus chancellors and their teams, and faculty, staff and students. The process picked up steam at the Board of Regents retreat in July, when the board provided its insight and direction.

Further conversations occurred as the academic year began and resulted in a roadmap for developing the plan that was shared with the Board of Regents in September. After agreement on the four strategic pillars and accompanying focus areas, the process had its official kickoff on October 3rd. Working groups, with representatives from all four campuses, system administration and the CU Foundation, are spending fall and spring semesters developing outcome goals, metrics, and action steps. The goal is to present the plan to the Board of Regents at its summer retreat in July 2020.

The timeline articulated here will be adjusted and updated as necessary.
