

In collaboration with the University of Colorado's four campuses and the System Administration, University Information Services (UIS) delivers information technology solutions and services to advance CU's mission to serve Colorado, the nation and the world through leadership in high quality education and professional training, public service, advancing research and knowledge, and state-of-the-art health care.

We partner with customers to advise on strategic technology direction, provide training and support customer software and hardware. Leveraging our knowledge of CU's business processes and the technologies available, we collaborate, create and develop solutions that enable our customers to meet their goals.
