

## **HCM** <sup>[1]</sup>

**Human Capital Management (HCM) is a human resources solution that helps manage and develop employees and increase engagement.**

Human Resources teams can track HR data, demographics, complete payroll, benefits, employee recruitment, compensation and budgeting.

[toggle-item title="Request access"]

The CU Identity Manager (OIM) is CU's access request and management system.

 Review this [roles document](#) [11] to determine the roles to request in the CU Identity Manager (OIM).

### Once you've completed training:

1. [Log into t](#) [12]he CU Identity Manager (OIM) using your campus login and password.
2. [Follow the CU Identity Manager \(OIM\) access request instructions.](#) [13]

The CU Identity Manager (OIM) will check that you have completed the required training for your requested role. If you have not completed the required training, you'll receive an email listing outstanding courses you must complete. Then, log back in to the system and self-approve your request so it routes to your manager/sponsor for approval.

If you have questions during this process, please contact the [UIS Service Desk](#) [14] and [Access Management](#) [15].

[toggle-item title="Common users"]

Access is comprised of a variety of different levels of user including:

**Employee self service:** The largest population, this type of HCM user is performing activities including, but not limited to, entering and/or approving timesheet information, viewing paychecks, maintaining personal data like direct deposit, address, phone number and W-4.

Benefits-eligible employees, retirees and surviving spouses perform annual benefits Open Enrollment elections within HCM.

**Campus users:** Many HCM activities are performed by campus liaisons in departments across the university. These include, but are not limited to, hiring, promotions, pay increases, transfers, terminations, position management, timekeeping, payroll and leave adjustment activities.

**Elevated access and super users:** These users are members of Employee Services HR, Benefits and Payroll departments as well as UIS HR IT Services and Application Development teams. They are responsible for performing, maintaining and/or supporting critical business activities including centralized functions of payroll production, HR/GL processing and benefits enrollment support.
