

HireRight ^[1]

Verify employees can work at CU through HireRight.

E-Verify is compares information from an employee's Form I-9 Employment Eligibility Verification to data from U.S. Department of Homeland Security and Social Security Administration records to confirm employment eligibility.

At the University of Colorado, I-9 and E-Verify information is completed electronically through HireRight's single sign-on (SSO) function. Electronic copying of verification information can be done through OnBase.

HireRight's I-9 Solution satisfies U.S. Citizenship and Immigration Services requirements related to the electronic creation, signature, retention and security of the Form I-9. This paperless process enables you to create, view, download, store and print the Form I-9, as well as run management reports on-demand. Built-in tools such as automated error checking help you complete forms accurately and promote compliance.

If you have questions about E-Verify and I-9 processes, please consult the handbook produced by U.S. Citizenship and Immigration Services: [M-274 – Handbook for Employers, Guidance for Completing Form I-9](#) ^[2].
