IT Applications [1]

Managing data, changes and customer requests.

Enterprise Applicaitons

University Information Services (UIS) offers a wide range of efficient and cost-effective enterprise services to support the university's academic mission and the strategic vision of each campus. The following applications are offered by UIS to all CU campuses and CU System.

CU-People [2]

Automic/UC4 [3]

CU-Transfer [4]

Reach out to your Campus Access Coordinator [5]

CU System-Only Applications

UIS directly supports CU System Administration and offers the following applications to CU System departments and staff only. If a campus employee is looking for a similar application, please check with your campus OIT.

Phire [6]

Terminal Servers [7]
