

CU-Transfer ^[1]

CU Transfer is used by customers to upload files for batch processing and to provide short-term storage to aid in collaboration between staff and vendors.

CU Transfer is the preferred method for enterprise file transfer services. CU Transfer access will require approvals from UIS Production Services.

[Request Access](#) ^[2]

Common users

University Staff members and vendors who need to upload or download files to the university securely.

Groups audience:

University Information Services
