

International Student and Scholar System ^[1]

The International Student and Scholar System (ISSS) ^[2]
is used by campus International Education and Admissions offices to report and track foreign national students and scholars and help keep them engaged in learning at CU.

Benefits of ISSS:

- Serves as the primary working system and database for campus International Student and Scholar Services (ISSS) and international admissions office personnel
- Tracks information on students who are foreign nationals that is not retained in Campus Solutions, such as identification of dependents, family financial information, etc.
- Stores data that is provided via interface from CU-SIS such as visa data, program of study, class enrollment, address and contact information, etc.
- Automates reporting to the Department of Homeland Security (DHS) SEVIS applications

Request access

To request access, you must fill out the [Sunapsis \(ISSS\) Access Request Form](#) ^[3].

Each campus has module security coordinators that review and provision the appropriate access.

Common users

- International Student and Scholar Services
- International Admissions
- International Affairs
- International Tax
- International English Center
- ESI Academy
