Current UIS Projects and Initiatives

Below, you will find details of all current UIS projects and initiatives in the planning and execution phase. It does not include:

- Projects in the initiation phase
  - New UIS project requests are submitted. High-level details are provided to the UIS Leadership, who determine whether the project should move into the planning phase.
  - The team undertakes the necessary tasks to close the project. This includes, but is not limited to, post-production support, transition to operational service and the collection and analysis of lessons learned.
  - version updates
  - PUMs
  - regular maintenance projects

Questions?

If you have a question about a project, click the link under the questions column to email the project manager.

1800 Grant Reservation System

1800 Grant employees will be able to reserve conference rooms and desk hoteling spaces with a reservation system.

Planning Phase

The UIS project team collects and develops necessary information to determine and confirm scope, budget and timeline. The team then develops project plans to manage time, cost, quality, change, risk and issues, which will guide the team through the project execution phases. Corrective action is required if the scope, budget and timeline of the project is not meeting agreed-upon expectations. Corrective action is required if the project is not within necessary scope, budget and timeline or information given when the project was approved to determine an aspect of status.

Red status is given when an aspect of the project is not within budget and/or is not meeting timeline or scope expectations. Corrective action is required if the project is to meet agreed-upon budget, timeline or scope.

Contact us [TBD]
The implementation of PeopleSoft Time and Labor will allow CU to replace the current and difficult to support custom-built MyLeave application. PeopleSoft Time and Labor will provide a robust stable platform that is supported by the vendor, is fully integrated with PeopleSoft HCM including payroll for North America as well as fluid mobile capabilities. Regulatory and legislative changes will be provided by PeopleSoft to ensure compliance.

Planning

Phase The UIS project team collects and develops necessary information to determine and confirm scope, budget and timeline. The team then develops project plans to manage time, cost, quality, change, risk and issues, which will guide the team through the project execution and closure phases. [6]

GreenGreen project status On-track projects are given green status. These projects are running within budget, timeline or scope. [9]

Planning Phase

The UIS project team collects and develops necessary information to determine and confirm scope, budget and timeline. The team then develops project plans to manage time, cost, quality, change, risk and issues, which will guide the team through the project execution and closure phases. [6]

Contact us [8] TBD
The current version of Drupal (D8) currently supporting online.cu.edu will discontinue on Nov. 2, 2021, posing a significant risk to functionality and security.

The new site, which will be launched on the new site, will offer greater stability, flexibility, scalability and security. Pages will be rebuilt to support new data filtering requirements and new functionality in updates made following the launch of the new site. Note: The Project Value statement will be refined during planning to outline the business value by working with the UIS Communications team.

The UIS project team collects and develops necessary information to determine and confirm scope, budget, timeline and quality. The team then develops project plans to manage risk, change, time, cost, and issues. The Project team will offer greater stability, functionality, data filtering, support new requirements, security, PagSeguro, scalability and security. The new site will be rebuilt to support new data filtering requirements and new functionality in updates made following the launch of the new site.

Supporting President Kennedy's initiative to grow CU Online's offerings, ODE is partnering with UCCS to increase market share for selected UCCS programs. The partnership between ODE and UCCS will allow for additional investment in marketing and recruitment functions, which will in-turn increase applications & enrollments. Additional online programs for UCCS will be moved to this solution over time.

Planning Phase
The UIS project team collects and develops necessary information to determine and confirm scope, budget and timeline. The team then develops project plans to manage time, cost, quality, change, risk and issues, which will guide the team through the project execution and closure phases. [6]
CUOnline Infrastructure: Technical Support & Implementation

This UIS project provides the underlying technical support to help the Office of Digital Education (ODE) lay the foundation to achieve its mission of supporting students attending CU online.

Execution Phase

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase.

Green project status

On-track projects are given green status. These projects are running within budget, timeline or scope.
This project will ensure, thru a series of tasks and tests, that campuses can perform normal day-to-day operations while enterprise systems process heavy load during semester start up.

**Execution Phase**

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

Yellow project status is given when some aspect of a project is at risk and may require corrective action to stay within budget, timeline or scope. [11]

Contact us [8] TBD
The InfoEd release will provide stability, bug fixes, and enhanced configuration tools to reduce internal support tickets, increase security and improve user experience. The timing of this upgrade also allows us to achieve a cadence of regular upgrades.

Execution Phase

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline.

Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

Yellow project status is given when some aspect of a project is at risk and may require corrective action to stay within budget, timeline or scope. [11]

Contact us [8] TBD
UIS will be migrating InfoEd documents into OnBase for the Office of Contracts and Grants at CU Denver|Anschutz Medical Campus.

Loading documents into OnBase will give users the option to leverage business process value from implementing OnBase workflow management. Users will still have access to documents through InfoEd.

The InfoEd database is currently significant and growing. Migrating documents out of the InfoEd database provides a long-term solution for document storage and retrieval. This is expected to improve architectural stability of the InfoEd application and reduce database maintenance and support efforts.

**Execution Phase**

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

**RedRed project status**

Red status is given when an aspect of the project is not within budget and/or is not meeting timeline or scope expectations. Corrective action is required if the project is to meet agreed-upon budget, timeline or scope. [7]

Contact us [8] TBD
The MultiCloud Database project involves acquiring technology resources to configure additional database clusters, which will replicate data and provide failover capabilities in the event of major site disruptions. This project also will reduce downtime during select maintenance activities.

Execution Phase

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase.

Green project status

On-track projects are given green status. These projects are running within budget, timeline or scope.

Contact us:

TBD
The goal of Multi-factor authentication (MFA) is to create a layered defense and make it more difficult for an unauthorized person(s) to gain access to our System office enterprise resources. MFA is a security system that requires more than one method of authentication from independent categories of credentials to verify the user’s identity. Multifactor authentication combines two or more independent credentials: What the user knows (password), and what the user can verify (security token challenge).

Execution Phase
The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

GreenGreen project status On-track projects are given green status. These projects are running within budget, timeline or scope. [9]

Contact us TBD
This project will build the foundation of cloud infrastructure - specifically on AWS - in which future production and non-production workloads can successfully operate in a secure, reliable, and performant manner.

The adoption of cloud infrastructure is identified within the UIS MultiCloud Phase 1 and 2 goals as well as supports UIS strategic goals aligned to overarching University initiatives.

### Execution Phase

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline.

Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

Yellow project status is given when some aspect of a project is at risk and may require corrective action to stay within budget, timeline or scope. [11]
Moving from PeopleSoft’s Classic navigation to the new, modern, Fluid navigation has a host of benefits including usability, accessibility, mobile-friendly, and active support and feature development from the vendor. In restructuring the navigation of Campus Solutions within the Fluid framework, we have the opportunity to streamline campus department workflows, reducing clicks between frequently used pages while making navigation more intuitive. Moving to Fluid navigation also keeps us within vendor support and positions ourselves to be able to take future enhancements.

**Execution Phase**

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

**Green**

On-track projects are given green status. These projects are running within budget, timeline or scope. [9]

**Contact us**

Fall 2021
CU People matches person records across systems. The current technology is 10 years old. By upgrading the internal matching and database software, we will be able to greatly improve search/matching performance and quality. Modern database software will also be available 24/7 so that matching capabilities are extended to online education and other cloud services.

Execution Phase
The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. [10]

RedRed project status Red status is given when an aspect of the project is not within budget and/or is not meeting timeline or scope expectations. Corrective action is required if the project is to meet agreed-upon budget, timeline or scope. [7]

Contact us [8] Spring 2021
UCCS was selected to be an early adopter of Salesforce's new Admissions Connect product, and the project is a key step in CU's journey to serve the full constituent lifecycle from recruiting and admissions to ensure student success and to best support advancement, donor management, and alumni engagement on one platform.

**Execution Phase**

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase.

**Green status**

On-track projects are given green status. These projects are running within budget, timeline or scope.

Contact us [8]  

Spring 2021
The UIS reorganization and New Service Framework will strengthen campus partnerships to more effectively set strategy and coordinate efforts. In addition, UIS and campus partners will benefit from a holistic view of the delivery pipeline. This effort was identified as a top opportunity in the department’s organizational maturation as it responds to the speed and quality of expected changes. This effort supports IT Governance's IT Strategic and Annual Plan efforts.

**New Service Framework Stage 2b: Future State Business Process Design**

**Execution Phase**

- The UIS project team executes the project plan with a focus on meeting scope, budget and timeline.
- Active management of time, cost, quality, change, risk and issues occur during the execution phase.

**GreenGreen project status**

- On-track projects are given green status. These projects are running within budget, timeline or scope.

Contact us [14]  TBD
The annual Open Enrollment project prepares the Human Capital Management (HCM) system for the employee benefits open enrollment period scheduled for April 19 - May 7, 2021. During this time, more than 25,000 benefits-eligible, active CU employees and retirees have the option to make changes to their benefits. Employee Services coordinates all employee communications, carrier fairs and informational sessions on each campus and manages the functional requirements and configurations to accommodate benefits changes in HCM. UIS provides execution support.

**Execution Phase**
The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase.

**Green Project Status**
On-track projects are given green status. These projects are running within budget, timeline or scope.
This project represents the work to implement a new UIS Product, a Tableau Server, as an enterprise visualization tool. Currently, CU Denver and CU Boulder have campus-based licenses, which we are porting over to System so all campuses may use this service. This enables UIS to provide a customer platform for direct use while paving the way for UIS to include this product in support of its UIS Data Management service.

Contact us [72] [10] [12]
The purpose of this initiative is to upgrade all CU domain controller’s operating systems to most current Windows server version. We will also upgrade the domain functional level to support currently unusable features in applications. This will also address upcoming end-of-life support for the current domain controllers.

**Execution Phase**

The UIS project team executes the project plan with a focus on meeting scope, budget and timeline. Active management of time, cost, quality, change, risk and issues occur during the execution phase. We will also focus on the project plan with a track on budget and schedule. These projects are running within budget, timeline or scope. Projects are given green status. On-track projects are given green status. On-track projects are running within budget, timeline or scope.

**Green/Red Project Status**

Projects that are running within budget, timeline or scope are given green status. These projects are on-track. Projects that are not running within budget, timeline or scope are given red status. These projects are not on-track.

Active management of time, cost, quality, change, risk and issues occur during the
Project Criteria

Level of effort: 350+ hours of work (between both planning and execution phases)

Complexity: Cross team interdependent (5+ teams needed)

Risk: Work poses a significant risk to the organization

Managed by: Project Managers

Initiative Criteria

Level of Effort: 40+ hours of work

Complexity: Coordination across teams; new technology to UIS

Risk: Work has a future deadline aiming for but has flexibility; target deadline is one quarter away at minimum

Managed by: ADs/Managers

Groups audience:
University Information Services
