Cognos/Tableau Monthly Training

The Data and BI team offers a training session on the last Thursday of the month.

During our March session, we will cover important updates and procedures related to managing user credentials for report scheduling. All Cognos report schedulers are strongly encouraged to attend to help maintain CU-Data performance by avoiding failed schedules due to authentication errors.

Please mark your calendar and plan to attend this informative session. If you have any questions or concerns beforehand, feel free to reach out to the Data and BI team at irmhelp@cu.edu [4].
