Production Maintenance

Production windows affect our "live" systems with real-time data used by students, staff, and faculty. When there is a production window, most systems will not be available to users, unless a production communication states otherwise.

4 a.m.-6 p.m. Feb. 23 scheduled maintenance for production systems

Non-Production Maintenance

Non-production maintenance windows affect the testing and development versions of CU's production systems. These mirrored systems allow UIS staff to develop new features and functionalities and test them before they are moved to production for real-time access by our customer base.

6 a.m.-6 p.m. March 6 scheduled maintenance for non-production systems

HCM Maintenance
Human Capital Management (HCM) maintenance affects the HCM system, which is used for core human resources, payroll and benefits, and other HR-related activities. Its applications are linked through the Enterprise Portal, which is the main point of entry for self-service applications for students, faculty and staff. The portal is sometimes called CU Resources, MyCUInfo, myUCCS Portal or CU Access.

HCM can be down during scheduled production maintenance windows as well as have dedicated maintenance windows.

**4 a.m.-6 p.m. Feb. 23** scheduled maintenance for production systems

**Campus Solutions Maintenance**

Campus Solutions windows are for maintenance on Campus Solutions (CS), the student system and primary component of CU Student Integrated Systems (CU-SIS). It encompasses many functions directly related to student administration, faculty workload and course management.

Campus Solutions can also be down during scheduled production maintenance windows.

**4 a.m.-6 p.m. Feb. 23** scheduled maintenance for production systems
