Production Maintenance

Production windows affect our "live" systems with real-time data used by students, staff, and faculty. When there is a production window, most systems will not be available to users, unless a production communication states otherwise.

6 a.m. to 6 p.m. Oct. 24 production maintenance

6 a.m. to 6 p.m. Nov. 21 production maintenance

6 a.m. Sunday, Dec. 11 to midnight, Dec. 12 production and campus solutions maintenance

6 a.m. to 6 p.m. Dec. 19 production maintenance

Non-production Maintenance

Non-production maintenance windows affect the testing and development versions of CU's production systems. These mirrored systems allow UIS staff to develop new features and functionalities and test them before they are moved to production for real-time access by our customer base.
6 a.m. to 6 p.m. Friday, Nov. 5 non-production maintenance

6 a.m. to 6 p.m. Friday, Dec. 3 non-production maintenance

Environment Activity

UIS uses many development environments, which are identical environments to our production services to allow for testing.

Do you use our different development environments for testing? Check to see the schedule of current and upcoming environment activities.

Other Maintenance

For maintenance that doesn't fall into one of the above categories, it will be listed here.

Maintenance key

Operational
  Information
Degraded performance

Maintenance
  Partial outage
  Major outage
Groups audience:
University Information Services

Sub Title:
It's important to ensure CU's systems perform optimally for you. Maintenance Matters gives you details on scheduled maintenance and outages to help you plan.
