Security Notice [1]

Hello CU Community,

You have landed on this page because you are attempting to access a site that requires you to be on the campus network, the campus Virtual Desktop (VDI) or the CU-provided VPN.

The university is temporarily changing its process to access university services through the internet due to the global security threat known as Log4j. To ensure we protect and secure your data, we are requiring an additional layer of security until the vulnerability is resolved. Students, faculty and staff need to sign on through the Virtual Private Network (VPN). The VPN is free and required for all services listed below. CU Denver and CU Anschutz also provide a Virtual Desktop (VDI) option.

We apologize for any inconvenience you may experience. We are working to return the system to normal as quickly and safely as possible.

VPN or VDI required for access

- University of Colorado Boulder VPN directions [2]
- University of Colorado Denver | Anschutz Medical Campus VDI and VPN directions [3]
- University of Colorado Colorado Springs VPN directions [4]
- University of Colorado System VPN directions [5]

STUDENTS: Services that require the use of the VPN or VDI to access include: your student portal, course registration, student financials, financial aid, viewing grades, degree audit.

FACULTY/STAFF: Services that require the use of the VPN or VDI to access include: HR, MyLeave, CU-SIS, degree audit, etc.

Updates will be posted as they are available.
