Overview: CU-SIS Campus Solutions (CS) is the primary component of CU Student Integrated Systems (CU-SIS) and encompasses many functions directly related to student administration, faculty workload and course management. Campus Solutions is made up of five modules: Admissions, Campus Community, Student Records, Student Financials and Financial Aid and is related to and integrated with several other enterprise applications, like the Customer Relationship Management (CRM) [2] system, Central Information Warehouse (CIW) [3] and Enterprise Content Services (ECS) [4].

Benefits: Some of the benefits of Campus Solutions include:

- Provides the ability to manage a student’s entire life-cycle, from admission confirmation through graduation and beyond, including all billing activity.
- Provides CU with a single system of record for all students with the flexibility to accommodate differences in student populations, campus policies and processes.
- Allows for the tracking of all scheduled resources, including courses, teachers and room scheduling.
- Manages complex financial aid process and monitoring of student aid.
- Streamlines student administrative processes through automation.

Funding Model: Campus Solutions is funded by the campuses. It is not a fee-based service.

Who is eligible to use the service: Students, faculty and staff use Campus Solutions to manage the information they need to interact with the University of Colorado.

How to request access to the service: For information on how to request access to Campus Solutions, refer to the Access [5] website.

Alias information / service history: CU-SIS Campus Solutions is sometimes referred to as CU-SIS, CS, or any one of its five modules (Admissions, Campus Community, Student Records, Student Financials or Financial Aid). Formerly called Integrated Student Information Systems (ISIS).
