Tableau [1]

CU's enterprise data visualization tool

Tableau is a business intelligence tool that helps people see and understand data. With interactive data visualizations that can handle large amounts of data and robust analytics, Tableau helps organizations be more data-driven in their decisions.

UIS provides an enterprise server platform to CU customers for direct data sharing use. The Tableau server is available on the UIS website, Cherwell and all applicable systems with additional authentication through PingFederate.

If you are new to CU or a new user of Tableau, please visit our Getting Started with Tableau at CU [2] guide. (You may need to be on a CU VPN for access.) All CU Tableau users are encouraged to join CU's Tableau User Group [3](TUG), which meets three times a year, at the beginning of each semester. The purpose of TUG is to share knowledge, tips and trick, and connect Tableau Users. Sign up for invitations to Tableau trainings and TUG webinars at TUG Communications [4].

Access [5]

Find campus-specific instructions on how to log in and how to purchase a Tableau desktop license or renew an active license.

Support [6]

Find information on submitting a help ticket, issues with the Tableau desktop version, as well as how-guides and training resources.

Tableau at CU [7]

Find information on Tableau enterprise server roles, site owners and the Data and Business Intelligence Stakeholder Committee.

Tableau Accessibility [8]

We value your input as part of our commitment to accessibility and encourage feedback and suggestions to enhance the usability of our Tableau Server. Together, we aim to drive improvements that support a more inclusive environment for all members of the CU community.

Tableau Environments

- Tableau Private Production [9]

- Tableau Private Development [10]
- Tableau Public [11]

CU Tableau in the news

- UIS enterprise Tableau server reveals the power of collaboration [12]
- Enterprise Tableau Server project begins roll out with PSC [13]
- New CU-wide Tableau contract saves $900,000 over 5 years [14]
