Want to learn more about Tableau? Check out the video, "What is Tableau? An Overview." CU’s Skillsoft learning platform includes several Tableau courses:

- **Tableau for Data Visualization: Introduction**
- **Tableau for Data Visualization: Advanced Features**
- **Tableau Desktop: Enhancing Data Visualizations**
- **Tableau Desktop: Analyzing Data**
- **Tableau Desktop: Performing Calculations**

The following series requires an access code. Note: You can purchase additional training or user access.

- **Tableau Elearning: Tableau Data Analyst**
- **Tableau Elearning: Tableau Site Administrator**
- **Tableau Elearning: Tableau Server Administrator**

The following are documents from previously held training sessions from the Data and Business Intelligence team at CU. You may need to authenticate for access:

- **BI Parameter Options**
- **Tableau v. Cognos Parameters**

**Tableau Video Resources**

CU Tableau training videos are only available to CU faculty, staff and students with an access code. Please contact the Data and Business Intelligence team if you need the access code for one of the following videos.

- **How to log into the CU Tableau Private Server**
- **How to connect to CIW data from Tableau Desktop**
- **How to publish a workbook or dashboard in CU Tableau Servers**
- **How to set up extract refresh and troubleshoot failure**
- **Role Level Security User and Dynamic Filtering**
- **CU Tableau Admin Responsibilities**
- **Site Admin Reports Demo**
