

## **MEDICARE PART D – CREDITABLE COVERAGE NOTICE\***

### **Important Notice from the University of Colorado Health and Welfare Plan About Your Prescription Drug Coverage and Medicare**

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with the University of Colorado Health and Welfare Plans and about your options under Medicare's prescription drug coverage. This information can help you decide whether you want to join a Medicare drug plan. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. The University of Colorado Health and Welfare Plan has determined that the prescription drug coverage offered by CU Health Plan - Exclusive, CU Health Plan - Kaiser, CU Health Plan - High Deductible/HSA Compatible, CU Health Plan - Extended, and CU Health Plan - Medicare are, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and are considered "Creditable Coverage."

**Because your existing University of Colorado Health and Welfare Plan coverage is, on average, at least as good as standard Medicare prescription drug coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.**

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15 through December 7. For some individuals this means you may have to wait to join a Medicare drug plan and that you may pay a higher premium (a penalty) if you join later. You may be required to pay a higher premium (a penalty) as long as you have Medicare prescription drug coverage. However, if you lose creditable prescription drug coverage through no fault of your own, you will be eligible for a sixty (60) day Special Enrollment Period (SEP) because you lost creditable coverage to join a Part D plan. In addition if you lose, or decide to leave, employer sponsored coverage, you will be eligible to join a Part D plan at that time using an Employer Group Special Enrollment Period. You should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area.

If you decide to join a Medicare drug plan, your University of Colorado Health and Welfare Plan medical coverage will not be affected. See the chart below for more information about how your current coverage compares to a Medicare drug plan.

If you do decide to join a Medicare drug plan and drop your University of Colorado Health and Welfare Plan medical plan which includes prescription drug coverage, be aware that you and your dependents may not be able to get this coverage back. You should also know that if you drop or lose your coverage with the University of Colorado Health and Welfare Plan and do not join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without prescription drug coverage that is at least as good as Medicare's prescription drug coverage, your monthly premium may go up by at least 1 percent of the base beneficiary premium per month for every month that you did not have that coverage. For example, if you go 19 months without coverage, your premium may consistently be at least 19 percent higher than the base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following November to join.

## Medicare Part D and University of Colorado Health and Welfare Plan 2015 DRUG EXPENSE COMPARISON CHART

### Medicare Part D

Yearly Deductible	Copayment or Coinsurance	Coverage Gap	Catastrophic Coverage
Member pays the first \$320	Member pays a copayment or coinsurance and the plan pays its share for each covered drug until their combined amount (plus the deductible) reaches \$2,960.	Once the member and the plan have spent \$2,960 for covered drugs, the member is in the coverage gap. In 2015, the member gets a 55% discount on covered brand-name drugs and a 35% discount on generic drugs that count as out-of-pocket spending, and helps him/her get out of the coverage gap.	Once the member has spent \$4,700 out-of-pocket for the year, the coverage gap ends. The member only pays a small copayment for each drug until the end of the year.
