## Using Non-Catalog Forms for Shopping in CU Marketplace

### In This Guide

This guide discusses the non-catalog shopping process. Topics covered are:

- ✓ Non-catalog definition
- ✓ Procedure for non-catalog shopping
- ✓ Non-catalog shopping process cycles
- ✓ Procedure to pay invoices (receiving)

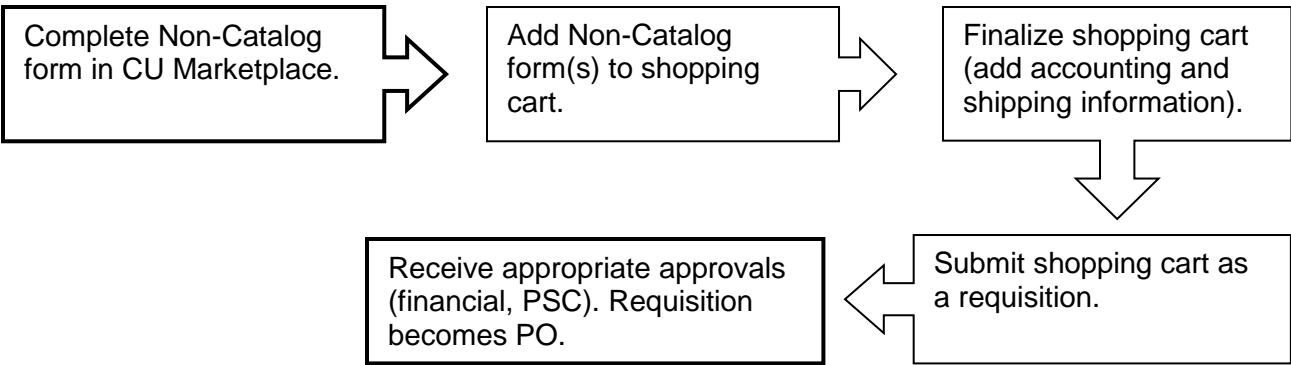

### What does “non-catalog” mean?

Catalog shopping can be accomplished using hosted or punch-out catalogs – in other words, where CU-specific items and prices are offered by CU-contracted suppliers. Therefore, “non-catalog” refers to purchases where hosted or punch-out catalogs are not used.

**Sole Source Purchases**  
For purchases over \$5,000 where only one supplier can provide the goods or services being requested, instead use the Sole Source Justification form. Refer to the Step-by-Step Guide [Creating Sole Source Procurements in CU Marketplace](#) for further guidance.

(You must have Requestor access in order to perform this step.)

## Step-by-Step Guide

### Using Non-Catalog Forms for Shopping in CU Marketplace

Step #5: Receive appropriate approvals, if needed

After the Requestor submits your shopping cart as a requisition:

- For requisitions \$5,000 or less – CU Marketplace converts your requisition into a PO and, if able, communicates your PO to the supplier to place your order. (If the distribution method for the supplier is *Manual*, you will need to communicate the PO to the supplier; see step 3 on page 2.)
- For requisitions over \$5,000 – CU Marketplace routes your requisition for financial approval. Financial approval is given by an individual with a fiscal role on the SpeedType (except Officer) who is also a CU Marketplace Approver. After financial approval is obtained, CU Marketplace routes your requisition for PSC approval. Once approved by the PSC, your requisition will convert into a PO. The Requestor will receive an email notification from CU Marketplace. Your PO is communicated to the supplier to place your order.

**Make similar non-catalog requests frequently?**  
A template can make requesting future non-catalog purchases faster and easier.

1. Complete the Non-Catalog form as little or as much as you want for your template. It is recommended to not attach documentation as this is usually different for each request.
2. Use the **Available Actions** dropdown (located at the top of the page) to *Add to Favorites* and click the **Go** button.
3. A pop-up window displays for you to name and save this form as is.

To access this template, use your side navigation bar to go to **Shop > Shopping > View Favorites**.

### PO Payment Procedure

First, let's begin by reviewing the payment cycle illustrated on page 1:

Once your order is placed with a supplier, referencing your PO number, the supplier must submit an invoice to receive payment.

## Step-by-Step Guide

### Using Non-Catalog Forms for Shopping in CU Marketplace

If the PO total amount is over \$5,000, online receiving is required to authorize each invoice to pay – regardless of the dollar amount of the individual invoice.

If you receive the invoice prior to the Procurement Service Center (PSC), email the invoice to [APIInvoice@cu.edu](mailto:APIInvoice@cu.edu).

An email notification is sent to the Requestor and any approvers once the invoice is entered as a voucher into CU Marketplace. You can then review the voucher online. The Requestor (or Receiver) should complete online receiving.

#### Do online receiving to authorize invoice(s) to pay:

1. Begin by logging into your portal and accessing the CU Marketplace.
2. Locate your PO using one of the following methods:

#### Method 1: PO/Voucher # known

If you know the PO or voucher #, use the Quick Search located in the upper right corner of your screen.

Click the Quick Search icon.

**If searching by PO #:** Use the dropdown to select *Purchase Order Number* and enter the PO in the next field; click the **Search** button.

**If searching by voucher #:** Use the dropdown to select *All* and enter the voucher in the next field; click the **Search** button. Select the PO from the resulting list.

#### Method 2: PO/Voucher # not known

If you do not know the PO or voucher #, perform a Document Search. Use your side navigation bar and go to **Orders & Documents > Document Search > Search Documents**.

If needed, click the **advanced search** link in the upper right corner of your screen. Use the **Search** dropdown to search by *Purchase Order*. Enter your search criteria and click the **Go** button.

Select the PO from the resulting list.

## Step-by-Step Guide

### Using Non-Catalog Forms for Shopping in CU Marketplace

3. Once your PO is displayed, use the **Available Actions** dropdown (located in the upper right corner of the page) and select *Create Quantity Receipt*. Click the **Go** button.

4. On the **draft receipts** page, if needed:

- Enter a unique **Receipt Name**.
- Enter the **Packing Slip No.** and attach a scan of the packing slip for records purposes.

5. Record the items that arrived, or the portion of services performed, in the **Receipt Lines** section located in the bottom part of your screen.

- Verify the **Quantity** of each line and update as needed.

Delete Add PO Save Updates **Complete**

- If a line is not part of this receipt, remove it by clicking the **Remove Line** button.

6. Click the **Complete** button located in the lower right corner of the page.

7. A confirmation page will appear noting the receipt and PO numbers.

In some cases, a supplier might send multiple shipments to fulfill one PO. For example, an item could be on backorder, or a large order might be shipped in multiple boxes which could be separated during shipping. Because of this, it is possible to perform receiving more than once on a given PO.
