## **Faculty Council Resolution on Solidarity with Marginalized Groups**

**January 3<sup>rd</sup>, 2025**

The faculty of the University of Colorado fully supports President Saliman, and Chancellors Christensen, Elliman, Schwartz, Sobanet, and Interim Chancellor Schmiesing as they navigate the challenges presented by the change in federal administration. We stand ready to assist in any way we can in meeting these challenges. Furthermore, the Faculty Council of the University of Colorado fully supports all members of our community: faculty, staff, and students, and unequivocally rejects and condemns all and any expressions of hate directed at them, whether by politicians, journalists, or anyone else. We particularly condemn any attempts to single out and deny the rights or humanity of individuals based on race, religion, gender identity, political ideology, or national origin.
